

Ramon Santiago Herrera Sentencing Hearing

Mon, Apr 10, 2017 2:00 PM - 4:00 PM
Judge Briana Zamora District Court Room 616

This criminal who burglarized our home in Four Hills and several occasions in Tanoan will be sentenced on April 10th. He is looking at 4 to 34 years in prison. I encourage our neighbors to attend the sentencing hearing.

To: Shane Rodgers, Commander
Foothills Area Command

Thank you for your introductory letter of 5 August 2015.

I have a concern. My neighbors on Toro Street SE tell me that over the past week, there have occurred at least three break-ins of homes that back onto the Four Hills Village golf course. Each of these break-ins occurred by entering the sliding glass doors that lead from the back yard into the home. These break-ins were not all on the same night. Items taken have been high-value, small items that were taken back out via the golf course.

Can Foothills Area Command collaborate these reports, and provide some summary information as to dates, times, and locations?

I would appreciate your help -

- Michael A. Blackledge
800 Toro Street SE, 87123
Rodgers,
Shane <sroddgers@cabq.gov> 8/12/15

to Michael, me

Thank you Mr. Blackledge, here is the information you requested. I had my Crime Prevention Specialist Jill Garcia pull up the information for August and I will put that below. I have spoken to several of your neighbors this morning and think there may be at least one more that happened in July. I have my impact sergeant looking into

the situation as well. In the notes from Mrs. Garcia I wanted to point out some other resources that are available to include our website and this evening we are conducting a crime prevention for the home workshop at the Foothills substation at 5:30 PM that we would hope you or someone from the neighborhood can attend.

I have not had one CFS or 42 of any auto or residential burglaries on Toro St SE; if they are happening, they are not being reported to APD.

For August to date, the only calls from Toro St SE or around Toro St SE have been a DV/Family Dispute 8/4 and a periodic watch requested on 8/11 due to a suspicious looking motorcycle rider in the area.

Here's month-to-date for 27-5Rs in beat 522:

Event	Pri	Type	BEAT/F-BOX	Unit	From	To	Location
IncName							
[8/03/15]							
#P152150064	3	27-5R	522	CS18	1:11	4:37	1321 CUATRO CERROS TL SE, ALB
[8/06/15]							
#P152181167	3	27-5R	522	PS54	18:21	19:40	1504 CATRON AV SE, ALB
[8/09/15]							
#P152210712	3	27-5R	522	F532	14:29	16:42	1207 CUATRO CERROS TL SE, ALB

The one on 8/3 was a landscaping rock thrown through a large window/sliding glass door while owner on vacation. IPS called it in, no known items were taken and alarm was activated. The one on 8/6 was entry through the garage on Catron and the other one on Cuatro Cerros Trail was a window/glass door broken with a landscaping rock discovered by a house-sitter.

Here's the month-to-date for the beat for 27-5As:

Event	Pri	Type	AreaC/Dist	BEAT/F-BOX	Unit	From
To	Location					
IncName						

[8/06/15]

#P152181317	3	27-5A	FH	522	CS31	20:15	0:12 1546 CATRON AV SE, ALB
-------------	---	-------	----	-----	------	-------	--------------------------------

This one showed garage door opener left in unattended vehicle that was stolen.

I'd love to have Michael log on to the FH web site and subscribe; he'll get auto emails when I post my daily watch notes and other crime prevention information. That way he can get the actual activity 24 hours after the crimes occur. These were all posted on the web site and publicly accessible along with crime prevention tips, which I bet the community would find very helpful. The details tell me that with auto burglary, these folks have got to start using their garages, get car alarms, stop leaving items of value (garage door opener = key to your home) in vehicles when

they park and walk away and maybe driveway sensors and IPS could be doing some extensive patrolling along these streets.

I see that the residential burglaries were with landscaping rocks to large windows while home owners were away for extended periods (having a house sitter, on vacation, etc). This is ideal for Neighborhood Watches - extra eyes on the block and knowing your neighbors well enough to know they are out of town and need extra eyes on the property. I wonder if they are utilizing Kaci and Linda to request 1010's and if IPS does that too, if IPS covers those streets.

Hope this is helpful. Michael's got some tools to get started with, and I'd love to have him come to the workshop tonight (I had 3 cancel, so there's room) to learn about Crime Prevention for the Home.

To: Commander Rodgers

Sir: Kudos to you and your CPS Jill Garcia - the information provided was complete and most timely. I will provide it to the FHVHA pres, and will investigate subscribing to the Foothills web site. I am familiar with the web site, but did not realize a subscription for daily watch notes was an option.

I did not mean to imply there were break-ins on Toro SE; that was only the location of the concerned neighbors who informed me of these August incidents. I will map these locations provided to see which back onto the Four Hills Golf Course.

Thank you again for the info, and especially for speaking to several of my neighbors, plus alerting your impact sergeant,

Sincerely,
- Michael A. Blackledge

Hi, Bruce -

I understand Bob Martinez has been in contact with you to make you aware of the two break-ins recently on houses from the golf course side of the house. Below is the summary received from the Foothills Command Crime Prevention Specialist, which may provide more info.

Thanks,
- Mike Blackledge

Sandy: the police summary doesn't go into it, but there were actual burglaries. I talked to Bob Martinez (Bob and Linda live at the 1207 Cuatro Cerros Trl SE residence). He is at a FOP convention in Pittsburgh right now, but tells me that he had sent a friend over to check on the house on Sunday, and the friend said he was able to walk into the house - the vandals/thieves threw a large rock through the sliding glass door, and had walked in, and ... this is strange ... placed the boulder in a bowl of glass pumpkins that Linda keeps in the entryway - but did not break any of the glass pumpkins!

They went in the bedroom and stole some jewelry, but Bob does not know yet if they found his guns. (the broken entry area has now been boarded up with some plywood; Bob and Linda won't be returning for another day or so). They didn't take any televisions, or even the blue-tooth phones, and even a garage door opener were not taken. But until Bob and Linda return, they won't be able to make a good list of whatever is missing.

Bob has notified Bruce Gerlander, our new Canyon Club manager, about these two break-ins that occurred from the golf course side of the homes, with the thought that Bruce may be able to do something about securing the golf course from non-desirables ... or at least non-members.

Hi, Sandy -

We're still not sure if we will return today or Tuesday. - anything happening? We heard of another break-in that occurred last Monday but was not discovered for days: Ed Sims and Therese on Cuatro Cerros.

3/20/16 **Bob and Linda:**

Despite Aaron's attribution (see msg below), I highly credit your efforts above and beyond, from increasing your security coverage to 'bagging' the evidence and working with APD toward the capture of this arrogant criminal. Thank you for following through, for your patience, and for sharing the story with us. Well done!

All is well that ends well - and y'all made the ending satisfying to your fellow golf course property owners.

Appreciatively,

- Mike and Bonnie

to LINDA, Michael

Mike and Bonnie,

Thank you and Bonnie for your kind words. It is about all of us working together and watching each others back.

Now, we just need to be there when the trial occurs to hold the "perp" and the judge accountable especially since Ramon Santiago Herrera has a criminal history that goes back to 2010.

I believe he was the "scumbag" that burglarized a home and family in Tanoan back in 2014 and stole \$250k in jewelry. He has been charged with aggravated burglary. It was good police work and time consuming detective work on the part of the fine officers and detectives in APD that finally nabbed this guy.

Bob and Linda

to Sandy, Bonnie, me, bcc: Sheila, bcc: Bob

Mark and Sandy:

Bonnie and I took a more careful look at your home this evening. We found that the screen on the screened-in porch, East side below the bird cage, has been 'pushed in' so someone could have crawled through that opening, and into the porch area.

Was that screen pushed in before you left town?

Bonnie and I also walked around to 904 Poco Cerros and noted the plywood on the front door. The front door does not appear to be a full 'double door' but the width is like a door

and a half - hard to tell now that just the plywood is there, but perhaps you can view it on Google. Anyway, Bonnie was correct in that both your home and the Poco Cerros home back onto the golf course.

to Bobby

Hi, Bob -

Someone apparently set off the alarm at my neighbor's home, 804 Toro St SE, early in the morning of Friday, 12 May 2017. I found the screen pushed in to perhaps gain entry to the home. Owners: Mark Jaffe and Sandy Henderson. Mark returns to Alb later this evening from a trip to Florida.

Then there was a home invasion later in the morning, about 7:15 am just around the corner, at 904 Poco Cerro SE. There is a short write-up on this incident on NextDoor.com

Both homes back onto the golf course, as does my home and your home.

to Bobby, Bonnie, LINDA, bcc: me

Thanks very much, Bob and Linda! I've also mentioned this to Roger Hartman - he is on the "Advisor Committee" we investors elected, but I'm not quite sure how that works -

We should return on the afternoon of 10 Feb, depending on the weather -

congrats again on winning the big Dining Room prize - you guys deserve it, after the year you had!
